

## PRESS RELEASE

### Winter Construction Celebrates Opening of the Solís Hotel

(November 13, 2017) ATLANTA, GA – Winter Construction has recently completed the new Solís Two Porsche Drive, which will hold its grand opening on Wednesday, November 15. The new design-build hotel is located adjacent to Hartsfield-Jackson Atlanta International Airport, and across the street from the Porsche Cars North America headquarters.

Solís is an eight-story luxury development with panoramic views of the Porsche driver development track and flight landings and takeoffs at the airport. With 214 guest rooms and suites, the new hotel offers travelers to the city of Atlanta a plush place to lay their heads while enjoying the up-and-coming airport district. The hotel offers a 100-seat Mediterranean-focused restaurant and an open-air lounge on the eighth floor that provides guests once-in-a-lifetime views of the Porsche track and airport runways.

In addition to being a design-build hotel unlike any other, with many partners involved, Winter Construction completed the project on time and within budget, while providing all furniture, fixtures and equipment (FF&E).

“Winter Construction is excited to be a part of the expansion of this important area near Hartsfield-Jackson. With many corporate headquarters opening in south Metro Atlanta, we know Solís will be a great success,” said Tom Nichols, President of Winter Construction. Brent Reid, CEO of Winter Construction, added, “Solís Two Porsche Drive is an upscale development that will attract visitors not only because of its proximity to the most active airport in the world, but also because of its connection with the Porsche brand.”

The Solís brand is known for high-quality accommodations, and Solís Two Porsche Drive continues that tradition. Offering refined restaurants and bars and 6,500 square feet of event space, including a 3,600 square-foot ballroom, the hotel’s exceptional amenities also ensures that visitors and meeting attendees will enjoy the Porsche aesthetic.

The design-build architect is HOK Architecture of Atlanta, Georgia.

*Winter Construction is a privately owned and operated Atlanta based general contracting company. We provide construction services to clients in the hospitality, retail, government, education, senior living, and multi-family markets throughout the Southeast.
