

## PRESS RELEASE

### Winter Construction Expands Chateau Elan's Conference Center

(November 16, 2015) ATLANTA, GA – Winter Construction has completed a 33,000 square-foot addition to the Chateau Elan Winery & Resort in Braselton, Georgia.

The two-level addition includes a ballroom with operable partitions, prefunction and service areas, restrooms, and storage and office space. The new Paris Ballroom features 20-foot ceilings, French chandeliers, and an outdoor terrace. Winter also completed the associated site work, which included relocating existing utility services and adding new services to accommodate the new structure.

Winter's construction of the new addition, in collaboration with architect of record Chapman, Griffin, Lanier, Sussenbach Architects, is the largest construction project at the hotel in recent years.

Chateau Elan Winery & Resort is a four-diamond hotel as rated by AAA. Chateau Elan's Inn provides 275 guest rooms, and its conference center now features more than 40,000 square feet of meeting space.
