

Winter's SPACES Team Continues to Thrive and Expand in 2014

ATLANTA, GA (February 3, 2014)

Over the last year Winter SPACES, Winter's special projects and interiors group, recognized revenue has more than tripled. They have won repeat work from many clients including Catholic Construction Services, UCB Pharmaceutical, Xaviant, eVerifile, Club Corp, Macy's Operations, Nordstrom, General Growth and Simon in addition to developing many new client relationships.

Recently completed projects include:

- the Hampton Inn on Druid Hills Road renovation. The lobby, registration area and breakfast buffet area were all demolished, renovated and updated with new finishes such as feature walls, high-end millwork and upgraded ceiling details.
- build out of the new Regus Office Suites in Savannah, GA and Bluffton, SC.
- phase one of the Clarke Atlanta University Research lab, which involved the construction of a stair and elevator tower adjacent to higher education building.
- new build out of the Nordstrom Top Shop/Top Man project at Phipps Plaza including demolition and new finishes.
- the Perimeter Mall Food Court renovation.

The SPACES team is currently working on:

- build out of the first Atlanta location of Freshii at Lenox.
- Winter's 5th project with Catholic Construction Services - St. Michael the Archangel Church. There will be 25,000 square feet of additions as well as renovations to the existing building.
- phase two of the Clarke Atlanta University research lab - installing an elevator and completing construction to provide access to the future research lab.

About Winter:

Winter is a privately owned and operated Atlanta based general contracting company. We provide construction and environmental services to clients in the hospitality, retail, government, education, corporate/office, religious, healthcare, historic restoration, industrial and multi-family markets in the Southeast.
