Winter Construction Tops Out AC Hotel and Moxy Hotel in Midtown Atlanta

(April 17, 2018) ATLANTA, GA – Winter Construction has topped out the 11-story AC Hotel and Moxy Hotel in Midtown Atlanta. The dual-branded hotel by Marriott includes the Moxy, debuting in Georgia and designed for millennials, and the AC Hotel, Marriott’s European-inspired hotel.

Winter celebrated the topping out, a construction milestone observed when the structure has been constructed up through the roof or highest level, with lunch for more than 300 guests, mostly subcontractors who have been instrumental in the project’s progress thus far.

Situated between 13th and 14th Streets, the two hotels have distinct entrances and separate elevators and floors, with a shared common floor that includes a pool, fitness center, bar, and business center. The Moxy will include 155 rooms, and the AC Hotel will include 133 rooms. The building’s total area will be 266,000 square feet, including four levels of parking.

Brent Reid, Winter Construction’s CEO, said, “Topping out this exciting new hotel is a wonderful moment that strengthens our important relationships with our client, subcontractors, and partners. We are thrilled to have so many people here today to celebrate our work together.”

In addition to the AC and Moxy, Winter is also currently building a boutique hotel in Savannah, Georgia, at the edge of the historic and iconic River Street, overlooking the Savannah River.

Noble Investment Group is the developer of the AC and Moxy Hotel in Midtown. Cooper Carry is the architect for the project. This is the second hotel Winter has built for Noble, the first being the AC Hotel Atlanta Buckhead, also designed by Cooper Carry.

Winter Construction is a leading builder and renovator of hotels. Winter recently built the Solis Hotel Two Porsche Drive, the internationally acclaimed hotel that opened at the end of 2017 and is located adjacent to the Porsche Cars North America headquarters.
